

# eSales Analyst 2020.05.02 - Release Notes

---

**Note:** All previous releases with these new ones.

## Major fixes / Improvements

---

- Write **all logs (errors / bugs) to files under logs directory**. So that, when some bugs / errors happens during the running of software, these **can be identified and fixed quickly**
- Fix: Tasks Details: `Edit` button -> If finished date is previous date then today date, error shows as **Finished date should be future date**
- Fix: Products details: `Edit` button -> If date is previous then today date, error shows as **Expiry date should be feature date**
- Fix: Product Insert: If Unit doesn't exists while saving, error generates as **Barcode doe's not exists**
- Add **label / title to all fields** e.g. use floating label for all fields (e.g. text-field, password-field, date-picker, combo-box)
- Fix: Add Invoice: **Alphabets can be entered** in `Disc in %`, due to which errors are generated
- Fix: Product Detail `Edit` button -> **Null Pointer Exception** (when expiry date is empty)
- Fix: **Incompatible data type in conversion:** from SQL type DOUBLE to Long

## Breaking Changes

---

- 

## Minor or other Extra fixes / improvements

---

- Fix: Sometimes **Multiple MDI windows shows** after saving settings of `Language`
- **Change a little bit of front-end design** (new better front-end theme) e.g. buttons and input fields

## Known bugs / errors

---

- **First time accessing printer generate error** sometimes.

```
Error printing report.  
Access is denied.
```

**Note (quick work around):** As the error is generated first time, again printing receipt works well.

- **On canceling printer job generate error**

```
Error printing report.  
Caused by: PrinterAbortException
```

- While saving Setting: **Clicking on close button also save setting and refresh Main window**

## Known limitation

---

- 

## Others

---

- This **software version (release) is compatible with previous version e.g. eSales Analyst 2020.04.16**
