

# eSales Analyst - Release Notes

---

**Note:** All previous releases with these new ones

## eSales Analyst - 2021.08.28

---

Released on **August 28th, 2021** as `2021.08.28` from 2021.08.02

### Hotfix

- **Fixed:** `Total quantity` for product in Stock Details when Product saved by Editing was not calculating well
- **Fixed:** For Product Edit -> Sometimes quantity is picked other than `opening stock` with / without batch wise
- **Fixed:** Memorize Invoice Details -> Pending Invoices are not shown e.g. Some words was miss-spelled in database
- **Fixed:** Accounts Receivable -> Add Adjustments -> Save & Print, Last amount entered was not calculating at all
- **Fixed:** Auto refresh Stock Details when Stock is saved by Editing
- **Fixed:** Auto refresh Customer / Supplier Ledger Details when record is deleted
- **Fixed:** When Customer / Supplier Adjustment is Save & Print, reports sometimes prints before alert dialog box show
- **Fixed:** Purchase Insert -> Esc key to close after adding new product / supplier must also not close form
- **Fixed:** New icons for button in Tableview not show clear if are disable or not

### Major Features

- Add support for new Android version e.g. Android 9, 10 & 11

### Minor Improvements

- Optimized view forms speed by changing icons in Tableview for Print, Report, Return & Delete buttons
- Remove Quantity column from Order Details, Purchase Details & Purchase Return Details. Hence increase speed of details forms
- Fix search bar on Details form related issues
  - **Fixed:** Some modules was not picking Search Record from Settings e.g. Dashboard
  - **Fixed:** When Reset button on search bar is clicked, Search Record dropdown was not set w.r.t Settings rather it was setting Daily
  - **Fixed:** Some minor issues related to From & To date pickers when Custom is selected like properly hiding / showing & disabling date pickers
- **Fixed:** First time migration of database to online database is too slow
- Database Runner will now show Status of Database from dropdown menu with software version e.g. Starting or Running
- **Fixed:** Only show keyboard on touch for controls if are not read-only (Android App)

## Bug fixes

- **Fixed:** Product Edit -> when batch no is changed & saved, product total quantity becomes zero
- **Fixed:** Anything can be typed in Tax filed on Invoice Insert, hence generate error too
- **Fixed:** Footer was not showing on Reports on Android App
